Support Global Peace & Harmony

Support "Appreciations of 1001 non-Muslims for Muhammad (SAW)"

All human being are from same origin of Adam and Eve; created by God almighty Allah (SWT). We must have common understanding of tolerance, respect and harmony among different religions, races or colours; but unfortunately, the global tension between Muslims and other faith groups is at an all time high.

To deal with these difficult issues, we can find practical guidance through appreciations of non-Muslims for Muhammad (SAW). Dr. Mohammed Lais, a National Award Winning Researcher has carried out a study to examine the characteristics and teachings of the prophet in the eyes of non-Muslims and wrote a book titled: ***Muhammad (SAW):1001 Universal Appreciations and Interfaith Understanding and Peace.***

His study involved rulers, professionals, scholars etc. across history and contemporary period including MPs, Lords, HRH Prince Charles and religious leaders from other faiths. Having dispelled the charges against the prophet since the 7th century, they have tremendously appreciated his teachings on daily interfaith cooperation and focussed on how to live with Muslims and non-Muslims. Appreciations for the prophet (SAW) by people from other faiths bears a great significance. This interfaith book containing huge prophetic teachings and guidance will be very effective in addressing the current tensions between Muslims and non-Muslims worldwide, for all, especially for our future generation.

It is my humble request to everyone to support this innovative book to support global peace and harmony amongst different religions, races or colours.

May Allah accept this noble project and make it as a source of salvation for all of us.

Muhammad Abdur Rahman Madani

Khateeb, Principal and TV Speaker
